# NOVA

Greetings, Cadet. I'm NOVA,  
your Eco-Companion.

Join NOVA and the Galactic Greening Initiative on a mission to revive forgotten planets—by making sustainable swaps right here on Earth.

**Swap Smarter. Live Greener.**

NOVA helps you find eco-friendly alternatives to everyday household products. From shampoo bottles to kitchen wraps, discover greener choices and reduce your carbon footprint—all while earning points for your interplanetary mission.

**Restore the Galaxy, One Green Choice at a Time.**

As Nova's Earth-side assistant, you'll help fund planetary restoration by making real-world sustainable decisions. Every swap you make earns you Green Points, which unlock plants, creatures, and terrain on your assigned planet.

swaps: 10

Welcome to ECOSWAP, your personal sustainability guide. Every product we use has a story—how it was made, how much water it used, how much carbon it released. Type in what you use daily, and we'll show you smarter swaps that reduce greenhouse gases, save water, and cut down on plastic waste. Your actions matter. Make each swap count.
